BIBLIOGRAPHY ON THE AMERICAN COLLEGE

The field of college and university activities has expanded so widely that only a limited portion of it can be covered in a condensed statement of this character. In particular, no foreign titles are included or books on higher education abroad. No books or pamphlets are listed which deal with the problems of one college department only; no memorial or historical matter is included, which pertains to but one institution, and no references are made to material published before 1900. It will be seen, therefore, that this is rather **a working bibliography for modern administrative problems and policies.**

No responsibility is assumed for indorsing material here included, or condemning any which is not listed. In a few cases, these books or pamphlets are a sharp condemnation of college life and policies, although the majority represent sympathetic interpretation by recognized leaders.
